Description

Macon MR7 / 8 rear upright castings available ex stock. These rear uprights were fitted on several Formula Ford cars including Macon MR7, Macon MR8, Jamun and Huron cars amongst others. These uprights are cast from Aluminium LM25 heat treated to TF condition or can be made in magnesium to order. The brake caliper mounting threads are 7/16 UNF and suit Girling 14LF or 12SP brake calipers.

PA Motorsport also manufacture axles and hubs to suit these and other uprights.
